Planets and Points in The Signs

Sun in Scorpio 13° ♏ 22' 07"

You are a passionate and intense individual. You may gain attention through creating dramatic situations. You may also be secretive.

Two animals are used to represent Scorpio, the eagle and the scorpion. The eagle is capable of reaching great heights because he has mastered his lower nature and overcome his passions and the temptations of the sensual sphere. The eagle has risen above the physical world because he has regenerated himself.

The scorpion, however, represents those who have not regenerated their thoughts and actions and are still living degenerate lives. They use their cunning and strike when least expected. These are the ones who satisfy their passions regardless of consequences.

You are, in general, ambitious, efficient, courageous, resourceful and intuitive. But, you can also be jealous, sarcastic, resentful, stubborn, possessive and vindictive. You enjoy impossible tasks. You like work that demands continued, determined effort and intense concentration. You are a born detective.

You have a strong will and determination to accomplish anything you undertake. You possess an analytical mind, strong intuition, reasoning powers, perception, long range planning ability, magnetism and energy. You have very definite opinions. These opinions can be so rigid that no amount of persuasion will make you change your mind.

You make friends easily and give unwaveringly to them. In these relationships, you like to know what your friends plans are, but, because of your secretiveness, you do not necessarily want them to know what you are planning. You are capable of extreme self-sacrifice for those you love. If any of your loved ones are threatened in any way, you feel that you, too, are being threatened. This causes you to instinctively strike out, either verbally or physically.

Because your unconscious mind is more in control than your conscious mind, you lose all sense of judgment under criticism. Under attack, you make effective use of both silence and sarcasm. Unfortunately, your sarcasm can become vindictive. You can, and will, wait a long time in order to get even. You need to learn forgiveness.

It is usually difficult to deceive you because your intuition enables you to understand the motives of other people. You receive very strong first impressions of others – experiencing either a liking or a dislike for the person involved. You need to learn flexibility, both in thought and action. Once your course of action is set, it is difficult for you to change. Trivial things bore you, and you would rather go deep rather than broad. The more intense, the better. In whatever you do, you want to be completely engrossed. Half-hearted measures are not for you.

You have the tendency to do things to extremes, either all or nothing. You have to

get to the bottom of whatever it is that interests you. You have to know everything, yet you remain mysterious and secretive. Although it may not appear so, there are powerful emotions and desires at work within you, underneath the surface. This power is one reason for your great endurance. Sometimes in your battles, you trample on others in the process. This is why you are sometimes classified as a great saint or a great sinner.

You regard yourself as your own judge, jury, and executioner, and punish yourself unnecessarily at times. You are self-sufficient, but not necessarily self-assured. You rarely actively seek applause or the limelight. You are generally healthy, but can be inclined to overindulgence in food, drugs, sex or alcohol.

In matters of love, you are loyal, affectionate and demonstrative, and perhaps possessive and controlling. You are happiest and most fulfilled with one partner with whom they can combine emotional and sexual love.

Ascendant in Sagittarius 1° ♐ 30' 21"

People with Sagittarius rising tend to be idealistic, aspiring, enthusiastic, religious or agnostic, interested in far away places and cultures or ideas, physically active, risk-taking, outgoing, breezy, extroverted, philosophical, perhaps dogmatic, prejudiced, superficial, looking for greener pastures, and on-the-go. Sagittarius, the Centaur, is half-human, half-animal and this is perhaps the way you are.

You have great aspirations, yet may have a most unruly desire nature. You can shoot for the stars or wallow with the animals. There is love of animals, the outdoors, sports, gambling, adventure, and travel. You may lack concentration. You probably have many acquaintances, but few friends. You tend to have casual contacts rather than in-depth relationships. You have a great restlessness and a love to be on the move. You may always be looking for greener pastures, never stopping or slowing down to see where you really are and what's around you. You tend to be talkative and direct and to the point. You may be lacking in tact and diplomacy due to your frankness.

You meet life with enthusiasm and idealism. Life is best viewed as a continual adventure with many exciting lessons. You will have the ability to see the overall picture, and to set goals.

Ideas are very important to you. You generally like working with the big picture and dislike all the little details. You may promise much and deliver less. You can rise to the heights or sink to the depths. Which will you choose?

Spiritual lesson to learn: Restraint, of all that is given away (and stop procrastinating). Jupiter rules Sagittarius so [Jupiter](#) will be important in your chart.

Moon in Scorpio 29° ♏ 45' 47"

You are secretive and inclined to brood in silence over the wrongs that people have done, either in reality or simply in your own mind. The mental and emotional focus may be on sensual things or on sex or death.

You find it difficult to trust people as you are suspicious of their inner thoughts and plans. You open yourself up to very few as you do not find it easy to trust others. Allowing yourself to be vulnerable and to relinquish control in relationships is not easy for you.

You love with passion and you hate with passion. Everything is done emotionally, with intensity. You can be very jealous and possessive in your relationships. You have an emotional intensity, and a strong need for drama. Under stress you will create drama and intensity in your life.

You may have been born at a time when your mother experienced a crisis, or your birth may have been traumatic. Your mother may have been possessive and intense. You have a habit of holding on to wrongs that have been done in the past and not forgiving nor forgetting, and to keep such feelings to yourself. Guilt, resentment and vindictiveness need to be overcome. You must learn to let go or your health will suffer. Learn to express your feelings outwardly rather than repressing them within.

You are not content with superficial appearances and are always probing beneath the surface of things for hidden motives. You have a great deal of emotional depth. The potential for success is great when control and discipline are learned. You are magnetic, energetic, independent, aggressive, patient, and determined. Self-control of the passions is mandatory.

Mercury in Scorpio 25° ♏ 56' 26"

You have excellent mental concentration and the ability to become completely immersed in your work. You love ferreting things out and are a natural detective. Your mind may dwell on the sensual side of life and may think about sex or death often.

You seem to know things at an instinctive, nonverbal level and prefer learning through direct experience or apprenticeship rather than vicariously via books or lectures. You have mechanical ability and work well with your hands. You may develop healing ability through your hands.

You are quick-witted, resourceful, shrewd, direct, sharp-tongued, and will readily say what is on your mind, in a most stinging manner. You enjoy satire and other forms of critical humor.

You may also be a worrier. Communications with you are intense.

You want to know everything while at the same time disclosing nothing to no one. You have the ability to penetrate beneath the surface of problems and people and really understand them.

You have abundant manual dexterity with the ability to repair anything. You use resources well. You have a tendency to delve into the core of matters, preferring this to superficial knowledge.

On the negative side, you can be stubborn, quarrelsome, skeptical, cynical, headstrong, and always holding the opposite views to others. There is interest in the occult.

Venus in Libra 6° ♌ 28' 51"

You are charming, tactful, courteous, considerate, balanced, poised, harmonious, and have a strong desire to please and not make waves. Because you try to be so agreeable, you have a difficult time saying "no". Thus people may take advantage of you.

Although Venus is a so-called benefic planet, Venus in Libra can be fairly ruthless at times within relationships. With this position, one knows just what the other wants to hear and can thus be quite manipulative. You naturally attract people and things into your life when they are needed. Sometimes this happens so easily that you do not appreciate what you have.

Harmony is valued so much that you will compromise a great deal in order to keep it. You do not like to dwell on controversial or emotionally difficult subjects and often try to "smooth things over" or "sweep them under the rug".

You have a strong need for relationships. In marriage and partnerships you want someone who is an equal, someone who balances you and your personality. You are attracted to people who have a certain finesse, delicacy, and subtlety. You appreciate good manners and refinement and are not happy with a coarse, blunt type of person. You will also require your relationships to be harmonious, peaceful, and creative.

You enjoy having beautiful possessions. You possess magnetism and refinement and you relate well to others. You probably have musical or artistic ability or at the very least a fine appreciation of them, as well as good color sense. On the negative side, you may at times be lazy, wanting to take the easy way out or the line of least resistance. You can also be very indecisive. You need people and may find it difficult to feel comfortable in your own company.

Mars in Leo 29° ♌ 48' 01"

You are proud and probably have a big ego. You want to excel, to stand out and be recognized for who and what you are. You like to be Number One. It is difficult for you to take orders or to stay in the background. You like to be noticed and will do things in a dramatic manner just to get attention and be seen. You hate being wrong and may insist that you are always right.

You have a strong need to express your personal creativity. You may display dramatic and confident behavior, and like to make an impact on your surroundings. You are forceful, strong, energetic, artistically creative, determined, and highly competitive. You play hard, you play to win, and you do not give up easily. In fact, you see life as a competitive sport, game or performance.

You love admiration and applause, and you have a strong sense of personal honor and integrity. You tend to be very self-confident, even arrogant. But you may become self-conscious, defensive, and rather belligerent if your self-confidence is shaken. You tend to be enthusiastic, rather impulsive, full of energy, and ambitious.

You are very ardent in matters of love and will pursue your love interest with

great fervor and passion, letting nothing get in the way of your desires. You don't beat around the bush, but say exactly what you feel, often in an embarrassing direct way.

On the negative side, there may be a love of taking risks or of gambling. You can be quarrelsome, argumentative and jealous. There may be heart trouble if physical activity is overdone when you are not in shape or if anger is allowed to vent destructively. Energy and passion both need to be disciplined. You need to be admired for your actions.

Jupiter in Taurus 22° ♉ 04' 54" Rx

You are on a persistent search for the truth. You have the ability to be a loyal and wise teacher. You have a strong desire for abundance. You desire to expand the world around you with practical, tangible, material things.

The rewards you expect from your efforts must be material in nature. As a gesture of appreciation, a simple "thank you" is not as good as some little something in the form of something concrete that you can hold and see. You are generous with your possessions and share freely what you have, but only if the cause merits such action. Your nature tends to be a bit extravagant or self-indulgent and it is up to you to control your desire nature.

You may be stubborn in your philosophical or religious beliefs, needing proof of anything before believing. There is a fear of sickness and pain.

Money and material possessions can come to you but you must use your resources wisely, else they will get you into trouble. A great love of rich or sweet food may lead you to become overweight. Control of the palate and of the lower nature should be observed.

Saturn in Aquarius 28° ♒ 21' 23" S

You possess practical common sense, self-discipline and inner sources of strength which provide stamina. Although humane in nature with a friendly and sympathetic disposition, you may have difficulty in understanding other people's goals. You need to learn tolerance for other people and must develop forgiveness. You have the ability to exercise system, organization, discipline and tact in unusual and non-traditional ways.

You can think ahead and plan things with an inventive flair. Seeing things in a whole new way is one of your strengths. Your tendency is to be serious, impersonal, detached and scientific. On the negative side you can be opinionated, vindictive, cold and uncaring with a tendency to get quite aggravated if your plans are met with opposition.

Yours is the generation which starts to focus on the practical details of humanity. Medical research, the balance between work and leisure, the links between

mind and body come into focus.

Neptune in Scorpio 17° ♆ 24' 23"

Note: This applies to your generation rather than you as individual.

Chiron in Pisces 14° ♄ 20' 11" Rx

Black Moon Lilith in Capricorn 2° ♁ 55' 22"

Your test is related to your sense of responsibility and foresight. You may experience delays in finding or developing your career. If your Black Moon works well, you will have a sense of discipline and duty, so you will achieve prestige. However, you can also be too cold or demanding of others.

Black Moon Lilith symbolizes inhibition of some form without necessarily having to do with sex. In Capricorn, it leads to solitude and introversion and deepens the inner life even more.

As for sexuality, we find it diminished to the point of sublimating it or literally rejecting it. On rare occasions, the approach to the body is through auto-eroticism. There can be forms of love with people of a very old age in which simple friendship prevails.

For your Black Moon in Capricorn to work well:

Reflect on your feelings and your ability to love and understand others. Don't close yourself off. Learn to meet others halfway. Think about what your role in society is.

North Node in Gemini 23° ♊ 27' 01" Rx

Part of Fortune in Sagittarius 17° ♐ 54' 01"

Your fulfillment will take place in far away places, whether mentally or in other countries. Whatever you experience will become broader and more meaningful. In addition, you are lucky by nature wherever you go.

You like to try new things that expand awareness and knowledge of life as a whole.

Planets and Points in The Houses

Sun in Twelfth House

There is the desire or the need to serve others in this lifetime. At times this is in direct conflict with a desire to seek seclusion from the world and/or wallow in self-pity seeking sympathy and service from others. This life may be a contemplative life due to the need to reshape negative character traits from past lives. You have an awareness of the oneness of life. You may lack confidence in your abilities. You have an empathy with sick or mentally disturbed people. You may develop or have clairvoyant powers and an interest in occult subjects and psychic phenomena. You may enjoy playing the martyr.

Moon in Twelfth House

The Moon in the 12th house can indicate work behind the scenes in an institution, hospital or jail. There may be dealings with public welfare or those unfortunates of life. Conscious or subconscious sensitivity can be damaging if not held in check. You feel some sort of cross to bear which others may not be aware of and many troubles may occur.

Secret enemies may try to take advantage of you. Through suffering comes obedience. Your mother may be of great distress to you. Serving others is the safest, shortest road to God. Teach to others what you have learned through your own suffering.

Concerning vocation: You prefer little or no contact at all with the public in your job. Symbolically, this position is the author hidden away in the attic, the playwright who will not attend a performance of his work, the behind-the-scenes person. The personality is hidden and may be limited and confined. In work, these conditions are preferred in order to provide maximum security and comfort to the personality.

NOTE: Since Moon is very close to the next house cusp, the next item is also relevant.

Moon in First House

Moodiness and changeability are keywords for you. These emotions can bring on much indecisiveness, un-assuredness, and insecurity. Being self-conscious about your appearance can also bring about mood swings. You are sensitive and perhaps worry too much over what people might think or say about you.

Forget about pleasing everyone (it can't be done) and instead focus on doing your best. Develop self-confidence and the courage to be different and don't let it get to you. You can be very sensitive to your environment so do not go to places that might bring up ill feelings or bad memories in you. Your sub-conscious is

probably very strong and sometimes quite unmanageable. Be less sensitive to the real or imagined slights of the people around you. Stay positive.

You can be quite restless and impulsive. Your mother perhaps affected you greatly as you were growing up. Some of your strengths and many of your weaknesses are probably due to this. Her influence is and may continue to be strong, both for good or ill. Concerning vocation: the emphasis is upon your individuality and doing your own thing. Try to find something that allows you to express your own uniqueness within your work. Find something that you can really put your heart and soul into. Without that deep emotional connection you will simply go through the motions and be unhappy in and with your work.

Mercury in Twelfth House

You have a perceptive, intuitive and subtle mind with an interest in the metaphysical world. You can absorb knowledge intuitively and you understand more than you wish to divulge. You are secretive and have the ability to understand the deeper meanings of tones of voice and hand gestures. Secret enemies may try to undo you or speak evil of you. You may lack confidence in yourself. You may find yourself limited or incapacitated if you allow your nerves to become too frayed. Be careful of your ears and your hearing, which may be weak.

Venus in Eleventh House

You are sociable, tactful and friendly. You have many helpful friends. Be careful, though, that these friends do not encourage you to over-indulge yourself for that will have a detrimental effect on you and your health. Be careful also of pleasing your friends at a cost to yourself. You have the ability to put people at ease. You enjoy cultural and group pursuits. You have a strong desire to relax with congenial companions, though you can be imposed upon by friends because of your desire to do everything possible for their comfort and pleasure.

Mars in Tenth House

You have an ambitious, enthusiastic nature with lots of energy. You have good executive ability and organizational powers. You want to lead and show the way, taking the initiative in your career. Success comes through your own enterprise. You do best in an occupation with variety. Your self-reliance is strong and you are practical and results oriented. There may be some difficulty or friction with one of your parents or with superiors at work.

Jupiter in Sixth House

Jupiter in the 6th House tends to give good health. Any health problems are usually caused by extravagance and over-indulgence, too much of a good thing. You are helpful to others and are a dependable worker with a sense of loyalty. You inspire cooperation and good will among your fellow workers. You enjoy your work and give of your time willingly. Watch that you do not overwork or overindulge in eating or drinking. There could be difficulties in the liver and blood or poor circulation due to over-indulgence.

Saturn in Fourth House

You are probably conservative and perhaps find security in land or real estate or in old, traditional ways, beliefs, things or antiques. You may dislike change

	because of an unconscious fear of the unknown. You may have a desire to accumulate possessions, for security reasons. There may be many responsibilities and problems in your home or family life.
	
	You may be somewhat of a tyrant or strict disciplinarian in your home or with your family. Inner worries may cause ulcers. You may be a caretaker of someone or of your parents, perhaps because of a karmic debt to them. The later part of life can be more rewarding if you learn the lessons life has to teach you in your earlier years. If not, then old age may not be as pleasant.
	
	Uranus in Eleventh House
	This confers intuition, originality, inventiveness and creativity. Humanitarian ideals are important to you. Unusual friendships with unusual people are indicated. Friendships, goals and dealings with groups can change rather suddenly. You make friends easily, but prefer many acquaintances with only a few intimate friends. Your friends may see you as being somewhat aloof. You could be quite a rebel or reformer and it would be best if you use these energies along constructive lines rather than the opposite.
	
	Neptune in Twelfth House
	You are reflective and intuitive. You have psychic ability which operates unconsciously. You may experience intense feelings of loneliness and of being held in bondage to a specific person. You feel a need to connect with a higher Power and to be part of the oneness of all life. There is interest in occult and mystical subjects. Serving those in some kind of confinement is a possibility. Serve or suffer may be a keynote in your life. Secret enemies may try to undermine you. Forgiveness, love and compassion need to be expressed and lived.
	
	Pluto in Eleventh House
	Loyalty of friends is important to you. Some friends may try to be quite controlling of you or you may be quite controlling of them. Intensity of friendships really appeals to you. Your friends may find you rather charismatic. They perhaps see you as the rebel or the reformer or idealist. Friends will come and go as the need for your own growth changes.
	
	This is all part of the cosmic process. What ceases to grow, dies. This includes friendships and all relationships you may have with different groups of people. Groups and organizations can play major roles in your regeneration or transformation. Your dedication to high ideals can be used for the benefit of all mankind, if you apply yourself. You have leadership ability and the will to fight for "causes" that are beneficial to others.
